

AS125 Digital Mailing System

Ashcroft 

MAILING SOLUTIONS

Designed with flexibility in mind, the AS125, powered by Secap's Intelilink™ technology represents the ultimate answer to the mailing needs of busy businesses. The latest digital technology makes processing mail quiet and efficient - the perfect office companion.

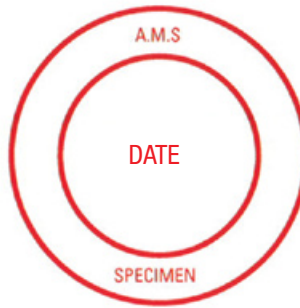

How will your business benefit

- **Future-proof mailing - Intelilink™** connects Secap's AS125 to a secure server, via the internet, enabling services such as postal tariff changes, software updates and advertising slogans to be downloaded quickly and effortlessly.
- **Correct value postage - every letter, every time** - The AS125 incorporates a 2.5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value.
- **Fast, accurate postage re-crediting** - Replenish your meter 24-hours a day with simple one-touch refills via **POSTAGE BY PHONE** - quick, secure and hassle-free.
- **Easy to use** - All controls are fully integrated on one clear control panel with user-friendly instructions to guide the operator through each stage of processing mail.
- **Streamlined processing** - Efficiently frank and seal mail pieces up to 9.5mm thick, whilst larger mail is quickly processed with self adhesive tape strips. Mailing couldn't be simpler with up to 5 presets for your most commonly used jobs.
- **Monitor postal spend** - Control postage costs with tracking and reporting for up to 25 named departmental or client accounts.
- **Strengthen your brand** - Enhance standard envelopes into eye-catching branded mail pieces with tailor made customised logos.
- **Track incoming mail** - Date and time stamping incoming post ensures mail is handled efficiently.
